ABSENTEE BIDS

If you cannot be with us sale day, we will handle any bids in confidence. Call Bruce Hassebrook or any sale staff listed.

ANNOUNCEMENTS:

Announcements from the auction block on sale day take precedence over information in this catalog.

LIABILITY:

Hassebrook Charolais Farms does not assume any liability in case of accident or loss of property.

Welcome to the Hassebrook Charolais Farm's Second Annual Bull Sale,

It certainly has been a wild year at HCF since the past bull sale. As we announced last sale, Tracy and I added not one but two new members to our family. Last October, we welcomed our twins, Brooks Martin and Charlie Jean, to our family. I always plan for sleepless nights during calving season, but adding two babies to the house has made for an even longer run.

Unfortunately since last sale, we also lost a mentor and hero around here; the man who instilled in me a love for raising cattle and was willing to give me the opportunity to do so. My grandfather, Gene Cumming, passed away last month and in doing so left a hole in our hearts that won't be filled any time soon. We will continue on in his memory with the highest goal of always trying to raise cattle that would make him proud. He saw portions of this set of bulls as they grew, and I am certain he would have been as excited by this offering as we are.

When we started raising Charolais cattle we had one main goal: to make them better. For those of you who have been at our previous sale, I hope you can agree that we continue making strides toward that goal. I believe that we have raised a set of bulls that will work in nearly any situation, whether it is in a purebred herd, in a commercial cow herd to sell calves in the fall or for a producer who retains ownership through the feed yard. The herd sires that we turn out to make these bulls are as good any you'll find. The females that we have stringently selected to raise these bulls are cows that I am proud to feed each day. They are balanced and functional females who do all the intangibles needed to reproduce good livestock.

These bulls are developed for longevity and production, right here in Genoa. We breed them and feed them like we would like to buy them. They are hard muscled and ready to turn out with cows and work. I take a lot of pride in raising bulls that I would be comfortable using myself and rest assured each night that my cull selections are stringent. Each of these bulls is one I am comfortable using myself because that's the only way I know for sure that my customers can be satisfied. This cattle business is about people for us and so we strive for satisfied customers and repeat buyers.

I sincerely thank you for taking a look at this catalog and your interest in these bulls. That being said, I also need to thank Tracy and the kids for their continued support and understanding. I thank my parents, friends and family who are always willing selflessly to chip in, whether on the farm, with the cattle or with the kids. The list is long of individuals who have helped make this another successful year. I recognize all of you and thank you.

Best Regards,
Bruce Hassebrook

In loving memory of
Gene Cumming

HEALTH:

Every bull offered for sale will have passed a complete breeding soundness exam. Scrotal measurement information and ultrasound data will be available sale day. All bulls will be furnished with health papers.

GUARANTEE:

Bulls are guaranteed breeders for the first breeding season defined as 90 days after turnout. Any animal proven to not be a breeder will be replaced with a comparable bull if available or sale credit will be given for the next sale.

REGISTRATION PAPERS:

Bull registration papers available per buyer request. Contact Bruce Hassebrook.

DELIVERY:

\$50 deducted from each bull if loaded up and taken home sale day. Free delivery on bulls to Nebraska and surrounding states.

NUTRITIONIST NOTE:

On behalf of the Hassebrook family, I would like to Thank You for your interest in the HCF program, and reassure you that the focus at HCF is not just on selling you a bull today. These bulls have been developed on high roughage, low starch rations designed to let them express their genetic differences for growth without hindering their breeding performance or longevity. Buy with confidence knowing that the bulls will be handled right between sale day and delivery, and they will be ready for business this year and for many to come. We look forward to seeing how the progeny of these bulls perform for you.

Jeremy Martin, Ph.D. (402) 890-5507
Great Plains Livestock Consulting, Inc.

This is the bull that accelerated our whole program for us. And what a better tribute to him than to start the sale with an elite son of his out our foundation cow, "Whitey." I can't begin to tell you what these two elite animals have meant to our operation, but to say that they have a special place in our pedigrees and our hearts is an understatement. After purchasing a set of cows from South Dakota in 2011 and buying the pick of Dave and Mickie Hebbert's cowherd in Denver, we went to pick out our cow during their bull sale. As we looked through the Hebbert bulls that year, we knew Stash was the one to buy. We weren't sure how Dave's bull sale would go that year, so we selected Stash's mom as our pick of the herd, she too has been an influence at HCF. As it turned out, we were able to acquire Stash during the sale, and he became more commonly known around here as "Cash." After developing a battery of stud Cash daughters, his impact to our program is evident. We still have semen in the tank and regularly breed and flush cows to him. He is a solid choice in our breeding program.

Sire: HC Free Range 4201 ET

Dam's Sire: HC Stash 0383

BW: 90 lbs. AWW: 761 lbs. AYW: 1324 lbs.

This is a bull that makes the trip to Genoa worthwhile. He has had many friends since weaning time. Purebred breeders and stockman that appreciate good quality livestock have all admired him. He is the real deal. When evaluating him you cannot help but notice his balance, power and profit potential. He'll make daughters, he'll make sons, but most importantly he'll make a set of performance based offspring, which means profit. His pedigree is stacked with the greats here at HCF. He is a bull that you have to appreciate and own.

SUNDAY, APRIL 8, 2018

This is the bull that puts draws in our elite "Cash" genetics and our famous "Whitey" - together they have created a bull that is deserving of lot #1 in any sale in the nation. He is balanced, correctly structured and best of all he is a pleasure to look at. You won't mind doing chores with this bull in the lot or the pasture. Buy him with confidence - in both his pedigree and his performance. This is an elite bull with the foundation of HCF behind him.

LOT 4
HCF 417 DOB: 3/11/2017 Charolais
 Sire: HC Free Range 4201 ET
 Dam's Sire: LT Blue Value 7903 ET
 BW: 88 lbs. AWW: 678 lbs. AYW: 1176 lbs.

A powerhouse of a bull. Genetically and phenotypically this bull is stout. Having "Cash's" mama in the pedigree tells you there is power in the blood. You'll love the bone, body and balance of the bull. We see his future being bright and can't wait to see what his offspring do at weaning time. We expect he'll throw calves with pounds and pounds of growth and performance. He is one of the favorites around here.

LOT 5
HCF 693 DOB: 3/22/2017 Charolais
 Sire: HC Free Range 4201 ET
 Dam's Sire: M6 Cigar R069 P
 BW: 92 lbs. AWW: 745 lbs. AYW: 1296 lbs.

Talk about longevity. His mama just turned 12. Cows don't stay around that long unless they do their job and do it well. She has produced high-sellers and we've retained daughters that are proving their worth. This is a bull that has the genetics behind him to stand the test of time and meet the needs of the future. He is a well-built, powerful bull that will create a great impact in any herd.

LOT 6
HCF 643 DOB: 3/23/2017 Charolais

 Dam's Sire: LT Polled Value 9089
 BW: 90 lbs. AWW: 767 lbs. AYW: 1334 lbs.

Another bull backed by longevity—his mama is only 11. But again she hangs around because she still does her job. Look at the dimension and design of this bull, features that consistently come from his dam. He offers a great depth of body and a powerful quarter that progressive cattle producers can appreciate. He's a good one.

LOT 8
HCF 3346 DOB: 3/17/2017 Charolais
 Sire: HC Free Range 4201 ET
 Dam's Sire: WC-WCCC Rocketfuel 7109
 BW: 92 lbs. AWW: 740 lbs. AYW: 1276 lbs.

This bull goes back to some of the best foundations genetics here at HCF. He is backed by generations of predictability and performance. Looking through his pedigree you see cattle that have been important to many operations across the country. You'll see cattle that have influenced both purebred and commercial producers alike. He has the power and design to make a difference in your herd.

This bull is definitely backed by the performance of a super maternal dam. In fact, she just raised twins, but you wouldn't guess it by looking at either of the calves at weaning time. Don't let the twin-thing scare you - that's the cow's job. Take a look at the bull. Admire his growth and design.

This is as good of a "Piston" son that you will see. He is an elite animal - he is really a phenomenon. His mama is first calf heifer that flat got the job done. She will be headed to the donor pen after weaning this bull. When you look at the bull, you cannot deny his power and performance. We shouldn't be selling him, but we want our customers to have a chance at our best. This is one of them. We just hope to create another one like him.

SIRE OF LOTS 23-36

This bull originated from Wagonhammer Ranches. When we saw him, we fell in love with his design and look. Then we analyzed how correct, balanced and powerful he was when set into motion. The decision to add this bull to the HCF genetic program became a must. Then when Myron Benes told us about the "Ledger" pedigree it was no longer a decision. We had to have him. Ledger A642 is backed by the great LT Ledger 0332 P, which is as reputable of a sire as any in the Charolais breed for adding quality. His dam, WR Miss Princess T629, is the dam of TR WR Wrangler, which has done an outstanding job of creating calving ease within the breed. The females out of WR Ledger A642 are making an impact here at HCF. And his sons are doing the same in the industry.

This is a 3/4 Charolais - 1/4 Red Angus bull that has the goods. Not often will you find a composite bull that offers this performance and design coupled with calving ease in a package that works. He is a great combination of traits for those who want to add Charolais influence with a touch of heterosis and some relief at calving time. Buy with confidence in this composite bull—he'll make them easy calving and get them growing. **Half of the proceeds from Lot 36 will be donated to the St. Edward Vol. Fire department as a tribute to Gene Cumming.**

LITTLE SCURS - COMPOSITE/ First Calf – Sometimes we like to diversify a little bit around here to offer our customers some options. We look at the Red Angus influence as a positive contribution to the performance base here at HCF. These composite bulls offer some genetic diversity without sacrificing performance and grow power.

LOTS 42 - 44: These Angus bulls represent the efforts of our young herdsman - Ty Groth. Ty is great help here and has built a great foundation herd of Angus females. We offer these bulls as part of our commitment to the youth in the cattle industry and our appreciation to what he has created. These bulls are balanced and powerful with an emphasis on calving ease. They offer some diversity in what we normally offer to our customers and we are proud to do so.

**COMMERCIAL
PAIRS**

FEATURING:

10 COMMERCIAL BLACK ANGUS FIRST-CALF PAIRS

10 COMMERCIAL RED ANGUS FIRST-CALF PAIRS

These pairs represent the best of the Sandhills. Looking for some young cows that can make an impact with the hard work of calving them out being done. Look no further - here they are. They come complete with a comprehensive vaccination program that has built solid immunity and are built to last for years to come.

Vaccination records for the pairs - heifers and calves will be available on sale day.
